

Diplomas at \$0 Cost— Powered by Transcripts

Platform pricing makes it possible.

Turn the credentials you already issue into a smarter, cost-saving strategy—without adding to your budget. Transcript revenue covers diploma fulfillment, so your institution pays \$0 while delivering a better experience for students.

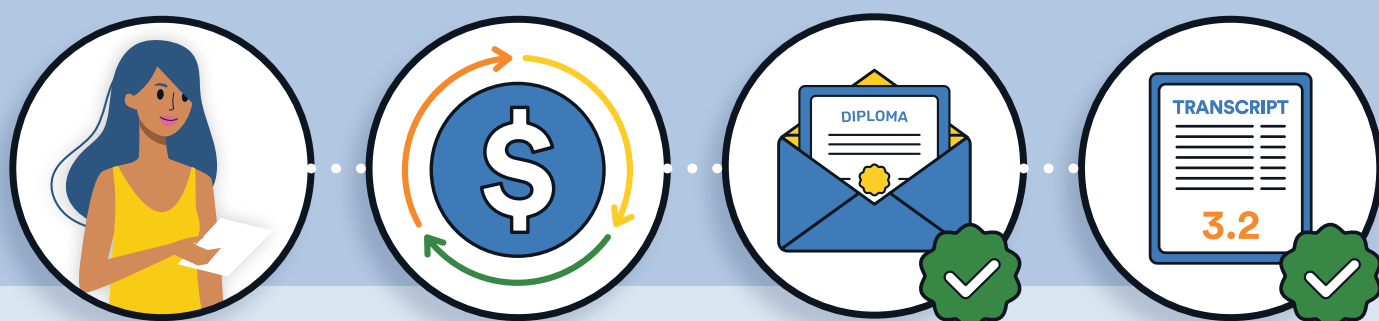

Credentialing Costs Add Up

Transcripts, diplomas, multiple vendors — credentialing can be costly, fragmented, and hard to manage. And with budgets always under pressure, every dollar counts.

Platform Pricing Makes it Smarter

With platform pricing, transcript orders do more than fulfill a request — they generate revenue that covers the cost of diploma delivery. It's a simple, student-supported model that takes the burden off your budget.

How it Works

- 1** Students pay for their **transcripts** through a modern, online experience.
- 2** Transcript fees cover both transcript and diploma **delivery**.
- 3** You offer a seamless credentialing experience — **without the bill**.

**\$0 Institutional
Cost**

15–25% Savings.
One Partner for Every Credential.
